11.	Bachelor of Medical Laboratory Sciences	46.7	-	-	

PLEASE NOTE:

Cut-off points/minimum points are relative, and therefore NOT fixed, but they vary from one intake to another, and from one university to another. Cut-off points are influenced by three (3) factors; **(a)** number of applicants for a course/programme, **(b)** performance of the applicants (UACE plus UCE, and where applicable 1.5 points for female), and **(c)** programme capacity (the approved admissible number/available slots) for a particular year of admission. In effect, cut-off points are determined during the actual selection of the applicants for admission, and NOT before!
